## A MESSAGE

from the Chief Justice

---

Fellow Ohioans:

In 1957, the Supreme Court of Ohio began regularly collecting and reporting caseload statistics concerning the work of Ohio's courts. In 1961, the inaugural issue of the *Ohio Courts Summary*, an annual snapshot of caseload statistics for the prior year, was published. This year, we take a new approach.

In this, the *2008 Ohio Courts Statistical Report*, we present detailed caseload statistics for the prior year, essentially mirroring the traditional core content of the former *Ohio Courts Summary*. In a new companion publication, the *2008 Ohio Courts Statistical Summary*, we provide an overview of the structure and operations of Ohio's court system and analyses of notable trends and other aspects of the work of Ohio's courts revealed through a closer inspection of the numbers. The statistical summary is available on the Supreme Court's Web site at [www.supremecourt.ohio.gov](http://www.supremecourt.ohio.gov).

Transforming the mass of caseload statistics collected each year into useful and meaningful information is key to fulfilling our duty to maintain an effective and responsive judicial system. We hope this new approach serves that purpose well.

## INTRODUCTION

For more than 50 years, the Supreme Court of Ohio produced a regular compilation of statistics regarding caseloads heard in Ohio's courts. The former *Ohio Courts Summary*, which reflects the prior year's caseloads, proved to be a valuable reference for details concerning individual court data. However, the usefulness of the Ohio Courts Summary is limited when seeking a long-term view of the data. In order to provide the courts and the citizens of Ohio with a broader, multi-year overview of the work of the Ohio judiciary, the Supreme Court prepared a companion report – the *2008 Ohio Courts Statistical Summary*.

The in-depth annual caseload statistics traditionally reported in the *Ohio Courts Summary* continue to be reported in this publication, now titled the *Ohio Courts Statistical Report*. The multitude of statistical tables in this report remains unchanged from those contained in past issues of the *Ohio Courts Summary*. This consistency will enable users to compare year-to-year data for individual courts.

The companion *2008 Ohio Courts Statistical Summary* incorporates the current year's caseload statistics with statistics from prior years in order to display historical trends in the data. Additional content includes descriptions of the overall structure and operations of the Ohio judicial system.

**Statistical Reporting  
DEFINITIONS**

---

The following definitions are adapted from the Instructions for Preparation of Statistical Report Forms promulgated pursuant to the Rules of Superintendence for the Courts of Ohio. They apply to terms found on the report forms submitted by Ohio's courts to the Case Management Section of the Supreme Court of Ohio and to the caseload statistics information included in the *Ohio Courts Statistical Report*.

## General Statistical Reporting

### C

**Clearance Rate:** In all case types, the clearance rate is a statistical calculation comparing the number of cases filed during the year to the number of cases terminated during the same year. It is determined by dividing the total number of terminations by the total number of new filings, reactivations and transfers. It is expressed as a percentage. For example, if 90 terminations and 100 total incoming cases are reported, the clearance rate is 90 percent.
